## **DETAILED ACTION**

## Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on August 2, 2005 and September 20, 2005 was filed after the mailing date of the Allowance on June 1, 2005. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

## Allowable Subject Matter

2. Claims 1-23 are allowed.

The following is a statement of reasons for allowance:

As for independent claim 1, it recites a method for reducing the number of iterations of a quantization loop for a block of spectral audio data. Prior art such as Esteban show a similar method but fails to teach the recited method involving quantizing spectral audio data, adjusting the polynomial, quantization step or other parameters depending on measured bit-rate of output, relating the actual bit-rate to the quantization threshold and checking bit-rate falls within a range below a target bit-rate.

As for independent claims 8 and 22-23, they recite a method for finding a quantization threshold using a quantization loop with a heuristic approach. Prior art such as Malvar show a similar method but fails to teach that the spectral weight values depend on measured actual bit-rate and adjusting a model of

actual bit-rate versus quantization threshold, where estimation of a quantization threshold is repeated based upon the model as adjusted.

Dependent claims 2-7 and 9-21 are allowed because they further limit their parent claims.

## Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jakieda R. Jackson whose telephone number is 571.272.7619. The examiner can normally be reached on Monday through Friday from 7:30 a.m. to 5:00p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wayne Young can be reached on 571.272.7582. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
